

## ELKS

## Preparing for Athletic Season.

## New Material Will Aid Teams.

## Another Bowling League in Prospect.

## Davey Training at Planet Athletic Club.

The large classes which have been initiated into the Elks, during the past few weeks, have contained a great many young men of more or less ability in athletics, and this fact has caused an earlier start than usual in the planning for the coming season.

It is planned, at this time, to put teams into the field in Akron, this year, which will be the leaders in local sport. There are a great many of the old members who will furnish experience and a great deal of ability, and it is aimed to combine the old timers and the new material to the improvement of athletics and sporting affairs at the club. Base ball players there are, in number and with experience. Foot ball players are also numerous, and although no steps at actual organization have as yet been taken, it is predicted that the Elks will get into the game early this year, and that they will cut a wide swath in the winning of games and contests.

## "FOX" ROBERT.

The "foxiness" of Robert Fitzsimmons is said to be of a nature which passeth all understanding. Jeffries had camped on his trail for a long time, in an endeavor to get a match. The old man refused to sign, and kept asking for better terms than Jeffries was inclined to offer. Finally, however, Jeff made an offer of a division of spoils on the basis of 60 per cent to the winner and 40 per cent to the loser, and Fitzsimmons, realizing the advantages of such a proposition, has accepted. In their former meeting, which was the one that brought Jeffries to fame, the loser of the match maintained that he was drugged. There is no doubt that this will be one of the best drawing cards in pugilistic history for several years.

## FURTHER BASKET BALL.

The girls' basket ball team of the Canton High school and that of the Freshmen class of Buchtel college, will meet in a game in this city, March 7. The Canton team has been trying to arrange a series of games of this kind for some time.

## YALE'S BASEBALL PLANS.

New Haven, Feb. 17.—Yale will cling to her time-honored system of baseball policy another year. No professional coach will be engaged to direct the development of the team, and from the long list of former Yale players who will be present during the season and handle the nine, no head coach will be appointed. These are the general plans for the season as outlined Saturday by Raymond Guernsey, captain of the team. He plans to have some graduate coach here nearly all the time from the opening of the season. He will call out the general varsity squad next Friday.

## TRAINING AT THE P. A. C.

Frank Davey's training for the coming wrestling match with Jack Burke, of Kingston, Ont., is being done at the quarters of the Planet Athletic club. The Akron wrestler is rapidly getting down into the best possible condition, with the aid of his two helpers, and will be able to give the visitor the bout of his life, when they come together.

## NEW RECORD MADE.

Chicago, February 17.—A world's swimming record was broken in the sportsmen's show at the Coliseum Saturday night, when J. S. Leary, of the Olympic Athletic club, of San Francisco, swam twenty yards in ten seconds flat. By so doing he clipped two-fifths of a second from the world's mark, set by E. C. Schaefer, of Philadelphia.

## RACING CIRCUIT FORMED.

Mansfield track has been withdrawn from the Northwestern Ohio circuit this year, and three new tracks were taken in at a meeting held in Cleveland Thursday. Wheeling, Salem and Ravenna are the new members. The racing season will open at the Newburg track, June 10, and will continue without interruption until October 24, a season of twenty weeks. Following is the schedule of the season: Newburg, June 10 to 13; Valley, June 17 to 20; Rockport, June 24 to 27; Youngstown, July 1 to 4; Salem, July 8 to 11; Ravenna, July 15 to 18; Erie, Pa., July 22 to 25; Akron, July

## The Jolly Girl

Often changes to the jaded woman, "I can't see what's come over Mary; she used to be such a jolly girl," was the remark of a young woman visiting a married school-mate. Marriage changes a woman. The drains and pains which are so often the sequence of marriage, rob her of all vitality. Give her back her former strength and she'll be as "jolly" as a wife as she was a maid. Doctor Pierce's Favorite Prescription gives back the lost strength by re-establishing the health of the delicate womanly organs. It dries the drains and stops the pains. It cures ulceration, inflammation, and female weakness. It makes weak women strong and sick women well. "For two years I had been a sufferer from chronic disease and female weakness," writes Mrs. Allen A. Bobson, of 1155 Kodman Street, Philadelphia, Pa. "I had two different doctors, and they gave me medicine which only made me worse for a time. My niece advised me to take Dr. Pierce's Favorite Prescription. I concluded that to open a correspondence with you for your advice would be safest, so I did, and have been highly benefited. I find that after taking six bottles of Favorite Prescription and five of Golden Medical Discovery, and following your advice in regard to local treatment, I am now a strong woman. Accept my sincere thanks for the interest manifested in my case and the happy results obtained." Sick women are invited to consult Dr. Pierce by letter free. Correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

29 to August 1; Warren, August 5 to 8; Rockport, August 12 to 15; Newburg, August 19 to 22; Valley, August 26 to 29; Salem, September 2 to 5; Wheeling, W. Va., September 9 to 12; Youngstown, September 16 to 19; Ravenna, September 23 to 26; Akron, September 30 to October 3; Rockport, October 7 to 10; Newburg, October 14 to 17; Valley, October 21 to 24.

## THE BAMBOO HAIR.

## A Slow but Sure Poison That is Used by the Japanese.

The young shoots of the bamboo are covered with a number of very fine hairs that are seen under the microscope to be hollow and spiked like bayonets. These hairs are commonly called bamboo poison by the white men resident in Java for the reason that murder is frequently committed through their agency. When a Japanese woman takes a fancy to a European, according to an official Dutch report, she will either have him or poison him if she gets the chance. She seeks any and every opportunity of mixing these infinitesimal hairs among his food, and they serve the purpose of irritating the whole length of the alimentary canal and setting up malignant dysentery. It may take a long time and many doses of this so called poison to effect the purpose, but the active woman does not tire, and death will surely result. The male native will also try this method of revenge for an affront.

## Assorted Voices.

It is a well known fact that voices differ greatly according to nationality and geographical position. Thus, in Russia one hears male voices which are absolutely unique in the lowness of their compass. The Italians, on the other hand, are notable for their fine tenor voices. Some Asiatic nations, according to Engel, sing in shrill notes by straining the voice to its highest pitch. Others delight in a kind of vibrato or tremolando. Some sing habitually in an undertone, others in a nasal tone. Lichtenstein, in describing the singing of a Hottentot congregation in South Africa, observes that among all the singers, consisting of about 100 Hottentots of both sexes, there was not one man with a bass or baritone voice. All the men had tenor voices. The Chinese voices seem to bear some resemblance to the weak character of the people. A military man who had three years' service in the country declares that he never once heard a Chinaman sing from his chest.

## The Laird's Last Drink.

The remark of counsel in a will case the other day that there were two peculiarities about highlanders, their great devotion to the national drink and their power of absorbing whisky without apparently getting the worse for it, recalls the old story of how the laird of Garscadden took his last drink. A considerable number of lairds had congregated in the clachan of law for the ostensible purpose of talking over some parish business. They talked well and drank still better, and one of them about the dawn of the morning, fixing his eye on Garscadden, remarked that he was "looking unco gash" (very ghastly).

## Benevolent.

There was not long since a venerable and benevolent judge in Paris who at the moment of passing sentence on a prisoner consulted his associates on each side of him as to the proper penalty to be inflicted. "What ought we to give this rascal, brother?" he said, bending over to the one upon his right. "I should say three years." "What is your opinion, brother?" to the other on his left. "I should give him about four years." The judge (with benevolence) Prisoner, not desiring to give you a long and severe term of imprisonment, as I should have done if left to myself, I have consulted my learned brothers, and I shall take their advice. Seven years!

## LABOR NOTES.

## Potters' National Secretary May Visit Akron.

Mr. J. J. Mahony, president of the Central Labor union, has appointed Mr. A. J. Lawrence, chairman of the Standing Grievance committee, and Mr. Joseph Thomas, of the Clerks' union, chairman of the Committee on Union Labor goods and unfair goods.

The report of the Carpenters' union at the last meeting of the Central union, showed a largely increasing membership. The Carpenters' union is one of the strongest in the city.

President Mahony says on good authority that Akron has one of the best Clerks' unions in the State. Organized labor is specially requested not to patronize the Chinese laundry and others, which are unfair to union labor, by the Central Labor union.

Twenty-five unions are now represented in the new Labor Lyceum.

Mr. J. T. Duffy, national secretary of the Potters' union will pay Akron a visit this week. Mr. Duffy is an eloquent speaker and one who is always in demand.

Mr. H. J. Conway, president of the Clerks' union, paid Akron a visit this week. He was the guest of Mr. J. J. Mahony. President Conway was well pleased with the Akron Clerks' union.

## The Properties of "St. Bernard Vegetable Pills" Are Truly Wonderful.

Once used and having thus proven all that is claimed for them, no well regulated household will be without them. For the cure of liver and bilious complaints, stomach trouble, costiveness and headache, they are unrivaled. Convince yourself of the truth of this by getting a box of "St. Bernard Vegetable Pills" at the nearest drug store.

## DISTRESSING ASTHMA.

## To Be Cured This Disease Must Be Fought in Early Stages.

In popular usage asthma is a term employed to describe a well known condition, yet it is significant of the broadened knowledge of diseases in general that, as a distinct disease, the name is applied in a more and more restricted sense by physicians.

For example, the asthma of his late years, as recorded by Boswell, was so clearly set forth by the faithful biographer that the modern physician is even now able to determine that an affection of the heart was responsible for it.

Asthma is often a family affection and is frequently traceable to parents, grandparents or great-grandparents. Most sufferers are of an excitable, emotional or nervous temperament. It bears a rather striking analogy to epilepsy in that its attacks are characterized by suddenness and influenced by strong emotions, like fear or grief, and not infrequently occur at night, when the sufferer may be plunged from deep sleep into an attack. In both diseases excitement during the day is often followed by attacks.

Physicians believe, however, that a high strung organization alone is not sufficient to develop the disorder, but that some other source of irritation must be added—that is, some faulty state of the system elsewhere, like disease of the digestive tract, harmful factors circulating in the blood, obstacles to free breathing in the nose and others.

Whatever may be the source they must be dealt with energetically and at an early stage, since long standing cases of asthma invariably develop changes in the lungs and heart which are permanent. The disease can then be dealt with only by measures aimed at palliating and cutting short the separate attacks and with no reasonable hope of an actual, permanent cure.

For the young sufferer and for those in the early attacks of asthma the writer would emphasize the necessity of a thorough search for and the removal of any and every error in hygienic living in order to avoid the suffering of the chronic asthmatic and the further diseases which it brings in its train.—Youth's Companion.

## COMPLETED PROVERBS.

"Labor overcometh all things," even the laborer.  
"Only that which is honestly got is gain," the rest is velvet.  
"Ignorance is the mother of impudence," no father is named.  
"Let a child have its will, and it will not cry," but its parents will.  
"Pity is akin to love," but kinship does not always signify friendship.  
"Whatever is best administered is best" for the one who administers.  
"Employment brings enjoyment" when it brings the means to enjoy.  
"Possession is nine points of the law" and frequently all the profits.  
"A man who will not flee will make his foes do," but what if his foes be made of the same metal?

"Every man for himself, and the devil take the hindmost," is the cry of those who are well in front.  
"A wise man is moved from his course neither by force nor entreaty," but the same often applies to a mule.  
"It is hard to pay for bread that has been eaten," but not so hard as to get bread to eat that has not been paid for.  
"In matters of taste there can be no dispute," for every man is so firmly convinced that there is no standard by which his taste can be measured.—L. de V. Matthewman in Era.

## How the Peach Was Produced.

That the luscious peach has been derived from the hard-shelled almond is no longer successfully denied. It is said that the peach in its original state was a virulent poison and that the Persians warriors brought to Persia some of the seeds and planted them for the purpose of poisoning the points of their arrows so as to render wounds caused by them to be fatal, but a change of climate and soil produced a fruit which is not only luscious, but is esteemed exceedingly healthful.

## "SUICIDE PIER"

## Has Claimed Another Victim, This Time, A Youngster.

Cleveland, O., Feb. 15.—The body of an unknown man was found on "Suicide Pier" at the foot of Erie st., today. It was that of a man about 22 years old, having red hair and a smooth face. The man wore a light overcoat and striped pants of fashionable cut. The body was frozen stiff. The right hand clasped a revolver and a bullet hole through the head showed that the man had committed suicide.

## Saved Him From Torture.

There is no more agonizing trouble than piles. The constant itching and burning make life intolerable. No position is comfortable. The torture is unceasing. DeWitt's Witch Hazel Salve cures piles at once. For skin diseases, cuts, burns, bruises, all kinds of wounds it is unequalled. J. S. Gerall, St. Paul, Ark., says: "From 1865 I suffered with the protruding, bleeding piles and could find nothing to help me until I used DeWitt's Witch Hazel Salve. A few boxes completely cured me." Beware of counterfeits. Wm. Warner, Gem Pharmacy, 113 South Howard st.

## A Turquoise Peculiarity.

About one woman in three cannot wear turquoise without turning them green. Some turquoise will turn green after being worn by any woman. Jewelers of the first class guarantee to replace turquoise if they turn green, and the annual cost of the replacements is stupendous. One jewel house has tried the experiment of having all its employees go around with dozens of turquoise strapped next to their skin to try to detect the green ones, but even when they have passed this test some of them will be brought back by customers, having turned a hideous green. No reason is known for the changing of color.

## Beecher's Open Hand.

An old member of Plymouth church who knew Henry Ward Beecher and his family tells a story about the great preacher. "No one ever knew what he did with the vast sums of money he earned as a lecturer," he said. "He used to give money away with both hands, and he was as likely to give a street beggar a twenty dollar bill as a dollar; but his salary from Plymouth church went direct to Mrs. Beecher intact. He never drew any money from the church until the end of the year. Then he received a check for \$20,000, his full year's salary, and handed it to his wife. When he died, he did not leave much of an estate, although he had earned millions of dollars in his life, but Mrs. Beecher had always received her \$20,000 a year, and she lived in comfort and even luxury in Brooklyn till she died. He was a great man was Henry Ward Beecher."

## His Means of Support.

Magistrate—What is your vocation—I mean what do you do for a living?  
"Ah, yes, yes, I understand very now, sir. What I do for a living is, my wife takes in washin'."—Baltimore Jewish Comment.

## THROUGH SERVICE VIA

## CALIFORNIA AND HOT SPRINGS, ARK.

WINTER EXCURSION TICKETS ON SALE TO NEW ORLEANS AND OTHER SOUTHERN PORTS; ALSO TO POINTS IN TEXAS AND MEXICO. Full information of local ticket agents or by addressing F. W. HARLOW, Division Pass. Agt., 423 Vine st., Cincinnati, O.
